STAMP 2000 Document Reader

This Document Reader allows an operator to manually pass a document imprinted with the new STAMP 2000 Medallion. The STAMP 2000 Medallion contains an invisible ultraviolet material which will trigger a light or audible tone within the reader verifying the Medallion imprint's authenticity to the operator. Model T1420 comes with a Liquid Light Cable for quicker, easier reading. The cable also attaches to stand T1451 for hands-free operation.

- T1420 STAMP 2000 Document Reader with Liquid Light Cable
- T1400 STAMP 2000 Document Reader (not shown)

STAMP 2000 Z-Code Barcode Scanner

This Barcode Scanner has been specially programmed to read the STAMP 2000 Barcode. The Scanner quickly checks the missing equipment database. This ensures the Medallion imprint being inspected has not been reported lost, stolen or destroyed. Order Stand T1451 for hands-free operation. The Scanner operates with either a manual or automatic trigger. The Barcode Scanner connects easily to all PC's using item T1455 PS2 Keyboard Cable or T1456 USB Cable and also reads hundreds of industry-standard symbologies.

- T1450 STAMP 2000 Z-Code Barcode Scanner
- T1455 PS2 Keyboard Cable
- T1456 USB Cable
- T1500 Complete Hands-Free Scanner Kit (scanner, cable and stand)

STAMP 2000 Scanner Stand

Desktop Stand for hands-free use of the scanner. Also includes a special bracket for the Document Reader's Liquid Light Cable.

- T1451 Scanner Stand

Transfer Agent INSPECTION TOOLS
